SELFIES
on the railroad are a bad idea, if you value your life!

An adolescent from Ryazan district wanted to take a picture of himself on the rails and got caught on an electric wire. The shock made him fall off the bridge; he died at the hospital.

SELFIES
with weapons can kill!

A 21-year-old Moscow female accidentally shot herself in the head with a non-lethal pistol as she tried to take a striking selfie.

High voltage SELFIES?
The price is too high!

A 9th grade student from the Moscow suburbs died while taking a selfie. He grabbed live high-voltage power lines.

SELFIES on the water - it's hard to keep your balance!

SELFIES
on rooftops - it's a long way down!

SELFIES-
pick your path in advance! Climb safely!

SELFIES
with animals don't always turn out cute!

SELFIES
on rail cars can give you an electric shock!
